

SPORT TAG

Watch tag with QR Code identification

For maximum safety in sport and leisure, ICEPro reports your location and shares your first aid information.

Register your data online. In case of emergency, rescuers can access to your information and send your registered contacts a real-time notification of your location.

Technical features

Material:	steel
Size (LxWxH):	0.98x0.94x0.16 in
Weight:	0.176 oz
QR Code:	laser engraving

Main features

- Access to the ICEPro portal for configuring the detailed personal information sheet.
- Configurable via App for smartphones and tablets (*compatible with Apple® iOS® and Android® platforms*).
- Unique product activation code.
- Storage of basic profile information (*including name, photo, date of birth, blood group, address, etc.*).
- Storage of information related to emergency contacts - including telephone and email numbers.
- Storage of medical information related to the state of health of the person (*allergies, diseases, drugs, etc.*).
- Redirect to the web page containing emergency contacts and first aid information by scanning the QR Code.
- In case of emergency, following scanning the QR Code, sending real-time notifications via email to all contacts.
- Geolocalization.
- Compatible with any smartphone with an enabled camera to scan QR Code.

Activation procedure

STEP #1

Buy a product from the ICEPRO line and download the official App for your mobile device (compatible with Apple iOS and Android platforms) or frame the QR Code on the product (each smartphone has a scanned camera) and follow the activation instructions on the web page.

STEP #2

Register on this portal by clicking on Sign in, create a personal account (following the instructions) or use your Google or Facebook account. Enter the activation code printed on the card inside the package where required. At this point your account is associated with the product and is active.

STEP #3

Fill in the available fields with data, enter contacts and emergency information. You can always update them whenever you want through the App or the website.

IMPORTANT: Each contact you enter will receive a personal e-mail that will inform you directly of the registration.
